REMARKS

Claims 33 and 37 are pending in the present application.

In the accompanying Response to the Restriction Requirement dated December 6, 2000, Applicants elected the claims of Group II, claims 33-35, 37, 38. Further, in response to a species requirement with respect to claims 33-35, Applicants elected a specified group of autoimmune inhibitors consisting of an antibody to gamma interferon, an antibody to alpha interferon, and an antibody to tumor necrosis factor. Claim 33 has been amended herein to comply with the above species requirement and to reflect the election of the group recited above. Claims 34, 35 and 38 have been canceled herein, as these claims contain subject matter that has been eliminated by way of the species election.

No new matter has been added by way of this amendment.

Favorable examination of the claims on the merits is respectfully requested.
